Micro\$oft is not an answer, Micro\$oft is a question. And the answer is "NO!"...

From what I've read, and from my perspective, we engineers should avoid Vista at all costs, while we can. Several of my co-workers have rushed to purchase new laptops, etc., now, while they still come with Windows XP. I've purchased multiple copies of Windows XP operating systems in the box.

To paraphrase an old joke from an election in the USA:

If Vista is the answer, it must have been a stupid question.

Cheers
