Homer doesn't even know who HST is/was ;-)

Wrong as always. I remember the sins of all presidents of living memory, R's AND D's.

Another preposterous claim. Most of their sins get classified and are not found out for up to 100 years, if ever. Case in point, how long ago the the negroid branch of the Thomas Jefferson family finally get publicly acknowledged? Compare to when it was created.

It must have been fairly early on – has anyone ever met a white person whose name is "Jefferson"? Or "Washington", for that matter?

Thanks,
Rich
