I'd be more worried of Dec 21, 2012 The Mayan calendar ends on that date.

<http://en.wikipedia.org/wiki/2012>

There's supposed to be an asteroid that will likely pass inside the orbit of communications satellites in 2029 and again 7 years later possibly land in the Pacific about 30 miles off Malibu.

Unfortunately the announcement coincided with the death of Anna Nicole and the media missed it . . .
