Multi-personality

Fred can do math and  
understands electronics, so  
he can't possibly be  
MicroProng.

Who is RP?

Robert, the notorious, from years past.

My suspicions are that MP was JoeBloe, Roy L. Fuchs and  
DarkMatter.

No doubt. Calling everybody in the group a "fucktard" is sort of the  
giveaway. And getting \*everything\* wrong.

How does get \*everything\* wrong? Wouldn't it be hard to do even on  
purpose?

That seems like a paradox, until you consider that, for any given  
issue, there is only one "right" but an infinitude of "wrongs".

Since he's angry at everyone else and thinks we're all retards, and  
since most people who post here are generally knowledgable, he  
preferentially picks the wrong answers. So, without knowing much about  
the science itself, he is effectively able to be wrong on purpose.

Plus, he craves public humiliation.
