The kind  
that you  
strike with a  
hammer? I  
have one of  
those. It's a  
PITA in the  
wrong

position.  
They make  
one (about  
\$70) that  
has a  
trigger. I  
might buy  
one to  
replace the  
basement  
window  
frame.

I hope the house collapses  
onto you.

I wish nothing bad on you. It sounds like  
you punish yourself enough  
already.

You started it. I have no intention of letting up on a total  
retard  
that thinks that little jabs are OKie Dokie. You get it back, in  
spades, dipshit. What you do not get to do is act as if you  
didn't do  
anything.

If you can't play the game, take your bat and go home.

Or change your nym yet again, stop calling \*everybody\* stupid, stop  
claiming you understand things that you obviously don't, and make some  
friends and learn some stuff. It's your life, it won't last long, and  
you can be as happy or as angry and miserable as you like.

You're an idiot. A glancing hit, even if the bullet embeds, imparts  
a side force on the ball.

Get a clue, dumbfucktard.

Angry and miserable it is.
