Ian Bell wrote:

cdrecord does not get on well with with 2.6 kernels for starters and for seconds the 2.6 install procedure is a tad hand driven (not a problem as such for slackers but just a tad annoying).

Joerg Schilling wrote:

Not really true:
Linux-2.6 did introduce an incompatible kernel interface change at the time when cdrtools-2.01 were in code freeze state.
Recent original cdrtools versions from:
<ftp://ftp.berlios.de/pub/cdrecord/alpha/>
work, but there is a lot of misinformation from uninformed people.

Is there anything here you'd like to change?
<http://66.102.9.104/search?q=cache:t7p-X4zF1r0J:en.wikipedia.org/wiki/Mkisofs+where-the-author-claims->

Well, there is a need to change almost everything.

Don't trust Wikipedia..... if there are too many malicious people, it seems to be impossible to keep correct information and the Wikipedia admins do not help against these lyers :-)

Well, you may help me to correct the content ;-)
