When that happens the UK will be delighted take advice from you regarding gun control.

No, you're right. The Brits shouldn't be allowed to have guns because once they get one in their hands, they go on insane killing sprees, if what you preach is true.

There are plenty of shotguns and rifles here.

Yep, locked up at the gun range.

Gun ownership in the UK is limited to the rich and connected, or the little guy that doesn't mind the government crawling up his ass with a microscope.

Don't use one for protection either (Tony Martin) or you will end up in jail, while the bad guy roams free.

We know the price of our freedoms and accept it.

If you can't handle it, stay at home and let the nanny state take care of you.
