Don't use one for protection either (Tony Martin) or you will end up in jail, while the bad guy roams free.

Tony Martin shot a kid in the back who was running away.

There is a LOT more to that story than that.
Now isn't there?

There's a heck of a lot. I know. A 'friend' of mine (jailed for a firearms offence) met Martin in jail in fact. He said he was a sad case who got himself there through his own stupidity. The facts of the matter stand though and that's why Martin was jailed. For murder.

Only, you are not telling us the facts of the matter.
There is still more to the story.

BTW, since when are you required to give a bad guy a fair fight?

Re: OT: a note to my friends in s.e.d re: guns

You're not. That doesn't mean you can shoot someone in the back though.

Why not?

Am I required to wait for the bad guy to take cover before firing?

How stupid can you be?

There is no reason to give a crook a fair shake.

If you don't see that you have become more a sheeple that I thought possible. Are your eyes migrating to the sides of your head yet?

In the end, a bad guy got caught doing bad guy things, and got shot.
Is there a problem with that?

Yes. The 'in the back running away' part.

So, he could return to finish the job?

I have no problem with the fact that a CRIMINAL got shot, in the back or otherwise. Sure he was running away, Mr. Martin finally got fed up and got his gun. All of those ass whippings his mamma never gave him finally added up to one gunshot wound.

You are forgetting to mention the fact that these guys had victimized him over and over again, the police had been called over and over again, and nothing had stopped the bad guys, UNTIL he shot them.
