i use the configuration word 03A2,after programming the
first time i

have

the indication "error blowing fuses",and no way to program
it

again....

i'm desperate ,it is 4:32 am here and i have to finish before
9:00

:-(

Maybe if you order another batch of parts by Next Nanosecond
Hyperspace Mail, you'll have a few more to play with...

9am? Pushing it kinda tight, no?

It must be homework.

--

of course it is,but is very important for a good friend of mine to solve it
