I have tea that will help to reduce the sugar level in the bloodstream. Interested, please call me at 98153257. Can be contacted also, one week prior to your schedule amputation in worst case scenario.

I have lots of tiny 5mm grey spiders with black stripes.
The spiders can be found all over the side of my house.
They move quickly, dodge a finger and jump off the house when threatened.
They don't spin webs so these are hunting spiders.
Email me for a box of 1 hundred.. :P
