So the louder and higher the lady shrieks the
faster the motor turns. Sounds vaguely familiar,
any ideas on how that might be applied?
Ken

Sex toy?
D from BC

"Sex", maybe, that's something other people do,
right, anyway, I saw some unusual attachments
for reciprocating saws that was vaguely familiar.
Voice activated motor speed control, that would
be a great stocking stuffer for the wife this Xmas!
Thanks
Ken
