Last guy I interviewed, we spent a couple of hours at a whiteboard, doing the first steps of an actual VME module design.

Isn't that just an RTL download these days?

It's this one:

<http://www.highlandtechnology.com/DSS/V470DS.html>

Then he did this,

<http://www.highlandtechnology.com/DSS/V450DS.html>

and this

<http://www.highlandtechnology.com/DSS/V340DS.html>

and this is almost done, except for the idiotic TI opamp problems:

<http://www.highlandtechnology.com/DSS/V346DS.html>

I somehow got saddled with writing most of the firmware for them.

Hey, Fred, show us something you've designed.

John
