Nice tempting price..
But at 15.30lbs weight.. guessing \$40.00 in Purolator ground shipping.

Rounding everything up... About \$100.00 for the Tenma isolation transformer .

Huh... :)

I can't imagine an smps near equivalent being much less expensive.

Thanks..

Nope only 12 bucks ups air overnight. It was two days late because all of the bad weather here.

I Forgot that the delay was becuse it came from a seperate warehouse.

Newark shipping express overnight is pretty reasonable.The price is \$12 for 50lbs or less.You have other options but the default is always the best deal ,in my case anyways. Considering I pay 8\$ for two to three day deliverys from Digikey and a minumum order is requiried or you get a handling fee its pretty reasonable.

Heres my invoice (About \$11 in other stuff).Just the transformer taxes and shipping would be \$62.
