I'd respect conservatives if they did some very simple things:

a) Shout down the radio shitheads like O'Reilly, Limbaugh, Coulter, etc. As far as most non-conservatives are concerned, **THOSE** people **ARE** the conservative movement. So if true conservatives wish to be taken seriously, they have to get rid of the loudmouths. Nothing less than public repudiation by Republicans, followed by criminal investigations and finally jail time, will suffice.

Ah! So you're against freedom of speech, particularly since the leftist have no humor and can't get sponsors to keep their shows afloat?

No, I did not say take them off the air. I said: the conservatives who disagree with Limbaugh et al need to respond to them in a forceful way, to say, "You don't speak for us." They can say whatever hateful things they want but they can't be allowed to say it unchallenged by those they purport to represent!

Liberals are very quick to "shout down" conservatives...while they are

Re: On good authority...

Re: On good authority...

trying to speak on campus or in public;denying them their "free speech" and right to voice their opinion,however right or wrong it may be.

And other liberals do not protest this denial of conservatives rights,but instead support it!

Liberals are the ones literally attacking speakers with pies.

LIBERALS are the ones wanting to bring back the "Fairness Doctrine" restricting political free speech.

Liberal Fascism.

Bill Clinton was impeached for a blow job, which of course was unrelated to his Presidential job.

It was on "company time",by the employer and management of the intern,BESIDES the huge LIE to the American People,and the PERJURY for which he was disbarred for a too-short a period.

BJ CLinton has a history of sexual harassment,which "liberals" are supposed to be against.(unless it's by a liberal,then it's excused.)

BTW,adultery is still a crime in many states.
