SNIP

He's dead Jim.

But anyway, we've come up with the solution on [comp.arch.embedded](http://comp.arch.embedded) . Just filter out ALL googlegroups posts. That's their problem.. NNTP.

I'm being kinder than that. I've identified ~60 potential "good guys" posting via googlegroups. I've been tagging these to test filter effectiveness. Turns out only ~17 are regulars. I'll watch for another week, then eliminate the other 43, who are always absent, from the filter bypass.

I'm also perfecting "master-baiter" filtering for those who insist on feeding trolls. The ability was right there in Agent, right under my nose... add an nfilter frontend = PERFECTO ;-)

...Jim Thompson
