Re: OT. How the Dutch view our Election

Those were Jim's instructions to the CIA? I can't say that I am surprised that they didn't take him seriously.

They were going to, but they couldn't find a small enough can.

Figures. They couldn't find Saddam's weapons of mass destruction either.

If you denied access to facilities and delayed access to others until you moved your weapons of mass destruction out of them, they wouldn't find yours, either.

I guess all those Kurds died from imaginary weapons of mass destruction, eh?

JF

Another reality challenged wingtard.

The Kurds died in the 80s.

Weapons inspections did not start until the 90s.

Records clearly show the weapons were destroyed in the 90s, by the Iraqis.

Multiple inspection teams found NO EVIDENCE of any weapons or weapons development.

But what is actual evidence when you can believe another fabrication by the same people that lied about the weapons in the first place.

Since you seem to think the WMD were moved, where in your imagination do you believe they have been moved? Syria, like the rest of the idiots?

If they are in Syria, why hasn't the administration used all those covert means to find these weapons in Syria? The *found* them in Iraq, right? Oh, wait, that's right, 5 years of free run of the country and not even a scintilla of evidence that there was anything like a WMD in Iraq except for some empty shells and some lost/degraded shells that were left over from the Iran/Iraq war.

So yeah, you keep telling yourself that the president, vice-president, secretary of state, secretary of defense, director of the CIA etc, etc, etc did not lie to you and the rest of the American people so that they could rape Iraq, kill tens of thousands of innocent

Re: OT. How the Dutch view our Election

civilians, kill 4000+ US Military and transfer a trillion dollars of borrowed money from the treasury to their friends in corporations like Halliburton.

And that lovely premise that the Oil in Iraq would repay the cost of the invasion, how is that working out, idjit?

You probably voted for Shrub, a man so incompetent he actually fucked up the Texas Rangers more than they already were.

Elect oil men to the executive branch and in 7 years the price of gasoline triples. Amazing coincidence.
