Al Gore is not the issue.

He's a significant part of it. By popularising outright lies, many people now have an entirely false idea of what's going on with climate.

Graham

Tell us Eeyore, what is going on with the climate. You seem to be the expert.

What's going on with climate ?

It's in a state of continual natural change. Pure and simple. CO2 is a sideshow.

Graham hasn't a clue, so he is convinced that nobody else has a clue either.
