Joel Kolstad wrote:

Does anyone know the salient differences between the HP 3577A and B network analyzers? As far as I can tell, the the B version has a faster sweep, but that's about it. Anything else?

Thanks,  
---Joel

<http://www.home.agilent.com/agilent/facet.jspx?cc=US&lc=eng&k=3577&more=true&from=techsupport&sbmt=Find>  
has free downloadable manuals for both versions.

If that link doesn't work, go to  
<http://www.home.agilent.com/agilent/home.jspx> and select manuals, under 'Technical Support', then select 'Oscilliscops, Analyzers, Meters'.

A new page will open.

Enter 3577 and press enter.
