Anyone have a need for a Transformer out of an older Tek scope? I can't recall the exact model it came from off hand, but there are numbers on it to identify it. It was removed out of a working scope – scrapped only due to no space.

This thing is heavy – if interested – you pay shipping and a very low price for it. I'd hate to just toss it.....

E-Mail to: Info@xxxxxxxxxxxxxx

Also have various other items available. Inquire with needs.
