I don't know if it's a psychological thing or what, but although I do like a Big Screen TV... I would prefer the older SQUARE design to the newer WIDE SCREEN types.

Maybe it has something to do with watching the SQUARE TUBE for all of my life or the fact that sometimes, when I'm watching a football game over a friends house the players don't look proportioned correctly on the wide screen,

Am I the only one out here that feels that IT'S HIP TO BE SQUARE and would rather pass on the WIDE SCREEN types?

Thanks guys

DAVID
