I think I
speak for
everyone
when I say

Report the moron to
groups-abuse@xxxxxxxxxxx
with the full header
instead of repeating the
spam.

and what will that achieve?

Google groups is *not* usenet.

Re: Report this spam to: groups-abuse@google.com

Then don't report it, dumb ass. Goggle WILL close an account if enough people report a spammer.

Im the dumbass?

I just told you that google groups is NOT the usenet.... and your defense is that google will close this guy's (yahoo!) account if enough people complain? Google groups is NOT THE USENET.

Look! Over there! A clue! Go grab it quick!

You truly are a DUMB ASS. They will stop him from logging in with that Yahoo account. As far as a clue, you'd have to stop playing with yourself to pick it up.

Man, seriously – give up. You just make yourself look more and more stupid with every post.

Since you completely lack a clue, why are you pretending you have one?

So tell me, oh wise one, how will Google accomplish this task?

.
