Car RF Transmitter MP3 Player Voice Recorder Watch A875 4GB  
Do you want a portable MP3 player that can allow you to enjoy music on the go? Are you sick of all those others that provide a cumbersome solution using cables and connectors? Well look no further because the Wireless MP3 Watch and Radio on Headset is for you. Take it wherever you go. Spread the words, and let your friends enjoy this great gadget too! This wireless watch allows you to broadcast the music to car audio systems or your home Hi-fi audio system or cell phone or any FM radio including FM earphones

This wireless MP3 watch features Seiko analog watch core, superior MP3 player, built-in digital voice recorder and Samsung USB flash drive, 5 functions in one stylish watch. Now you can enjoy music anywhere anytime as cool as James Bond! This RF MP3 watch provides a revolutionary solution to share your MP3 music by sending FM radio signal to any FM radio. Imagine you turn on this mp3 watch right on your wrist, step into ANY car, and tune the FM radio to 88.1/88.9 Mhz, and now everybody in the car can listen to what you are playing in the watch! Cool, hmm? more than James Bond! Car party: park a few cars together, all with FM tuned to 88.9Mhz, and all play music from your MP3 watch with high-power audio system!

Features:

- \* Brand new cool sport quartz watch PLUS
- \* Built-in flash memory can store hundreds of mp3/wma songs
- \* Boasts RF(radio frequency) sending function, convert mp3 sound to RF signal and lets you listen to your music in the car

Tons of Fun with this MP3 watch:

# Car MP3 party: go to picnic with your friends and park the car together, ask them to turn their FM radio to 88.9Mhz, all listen to your watch!

# Boss, keep your promise: before step in your boss' office to talk about your benefits, wear your mp3 watch and push the recording button and move in, later on when your boss denies his promise, show him the recording

# The most surprising Gift for her/him: Step in your friend's party, push a button to start recording, at the end of party, you play the party recording and announce this is the surprisinggift for him/her

# Honey, I love your voice: before your appointments with your man or angel, push the recording button and enjoy your happy time together, after getting home, replay all the words you two have said. The recording quality is very high.

# Lazy student: step into your classroom, put your watch on the front desk and you go to play, after class is over, you replay the class lecture at any time

# What people gossip in a party? before go to a night club party, push the recording party, and save 8 hours' talks, then replay it  
Keep your genius ideas: Got a creative idea on anywhere but don't want to forget it, push the recording button to memorize it down

# Say I love you: if you are too shy to say something to a girl/boy, record it down and send it to her/him

# Excite ourselves: record your motto as the first song in the watch, and play it every morning

# Lazy Audio Diary: record down your diary easily at any time any
