The Bezel is defined as a groove or flange designed to hold a beveled edge, as of a watch crystal or a gem. The Bezel Diamonds on Rolex watches are designed to be unique on each watch. They come in a variety of colors and sizes, and are one of the most sought after watches in the world.

The Internet has made this beautiful timepiece more accessible and slightly less expensive in the last few years. There are many websites on the Internet advertising lower prices and with so much competition it is easier than ever to obtain one.
