Mark,

Lost your E-mail address from our previous transactions with the Mits VCR.

Got a new question for you. Do you guys do repairs on Sharp LCD projectors, or do you know anyone in the KC or Wichita area who does?

My XV-S96U blew a bulb a couple of weeks ago. Replaced the bulb, but the pj still won't got. Gotta be something bad inside, WAY beyond my capabilities.

Many thanks, and regards,

Jim in Missouri (Lakeside)
