Their Rettangolo watch speaks for itself. With influence from the nineteen-thirties, this watch mixes contemporary design with geometric lines and shapes. Like the other watches in the line, you have the option of choosing the case material, steel, yellow gold or white gold. What sets this watch apart from the rest however, is the rectangular shape of the case, as well as the unique geometric design of the dial. If you are looking for something with a bit of history behind the design, the Rettangolo is the watch for you.
