In the UK it is the responsibility under warranty for the retailer to deal with it. In the USA you deal directly with the manufacturer.

I can just imagine the hassle with what is an intermittent fault. Nor do I know if it's the MB or CPU which is at fault. I'm not sure I can wait for the weeks all this would take. And the cost of the carriage back to them probably several times...

There are two sides to every divorce: Yours and shit head's
