On Thu, 14 Aug 2008 03:51:35 GMT, fyi@xxxxxxxxxx put finger to keyboard and composed:

This unit does have powering on issues.

Can you tell me which vendor is offering a replacement?

Thanks

This supplier is offering an exchange logic board for US\$150:
<http://www.lcdrepair.us/w3000-logic.html>

The symptoms are:

Power, Sound But No Picture

Have to press power button numerous times to get a picture

Power, Picture But no Audio Output

Not the same as yours, but it seems to be a common problem. I'd still be looking around the power supply area, though, before taking a chance on the logic board. If you do go for the board, I'd be keen to know what the fix is.

The same supplier is also offering a PS for \$120:
<http://www.lcdrepair.us/w3000-Power.html>
