GW Bush's buddy, Washington Times Owner Sun Myung Moon Equipped North Korea to hit USA with Nukes...

1994 was before the internet opened for business. Most old news stories from 10 years ago went away because of passage of time. The only online links are activists who keep watch on the Sun Myung Moon Organized Crime Empire, and the shady politicians who associate with the weirdo Moon.

There are hard-copy records in libraries which reporters should review showing the Toen-Moon, North Korea links in the Russian sub transfer. It was public controversy then in 1994, and much hoo-haa was published. Ten years later we find that the Axis-of-Evil has a major newspaper in Washington DC, "Washington Times" that has been involved in all the same shady organized crime operations that convicted felon Sun Myung Moon has.

The North Korean-born Moon and his Washington Times is deep in the heart of the Bush Family political campaigns, and this is now a top-of-the-agenda subject that the Bush campaign must now explain. Arming enemies with NUKE-delivery systems is not an excusable act.
