How many tons of \*electrolytically manufactured\* hydrogen  
have you sold to  
date ?

\$24 billion worth. 1/3 of it will be used to upgrade lower rank  
fuels, 2/3 will be burned directly.

And when will you deliver these 30 million tons ?

Graham

30 billion you mean – these are 40 year contracts with first  
deliveries in 2011.
