Believe what you wish.

If you choose to believe that a fire can endlessly burn  
and reburn its own ashes -- so what?

Just a FYI, Graham, I never once mentioned re-using the  
Hydrogen or  
Oxygen after it was 'burnt'.

Yes, you did. But may be you did not understand that this was what you  
mentioned?

However, I did mention several times

adding more 'Hydrogen and Oxygen' to the mixture to keep the burning  
process going.
