"The Basics of Using the Natural Energy from the Sun"

A solar energy course with Richard Komp

18th – 23rd May 2007

We are very fortunate to be able to welcome Dr. Richard Komp, an expert in solar energy since the 1950's, in leading this in-depth course on all aspects of solar energy. The course will be of a practical nature, with a group project every day, and lectures and discussions drawing on Richard's extensive knowledge of solar energy systems.

Every course participant will receive copies of two of Richard's books: Practical Photovoltaics, and the course text The Maine Solar Primer, which has do-it-yourself plans and a good section on passive solar architecture.

More information about the course and about Richard Komp please see www.thedharmahouse.com

Cost (includes 3 vegetarian meals a day):

€uros 300 indoors / €240 camping (concessionary rate: €180 camping)

.
