This tips I was got from my friend,maybe useful for you :

If you often surf or download files & get troubles like :

1. Slow internet access, lag & timeout.
2. Your IP is banned / restricted to visit.
3. Afraid if your IP will be Logged.
4. Download result often errors.
5. Download frequently is limited (like at rapidshit, etc).

And you hope great changes like this :

1. Connection more FAST (example to access <https://>).
2. Connection more SECURE (Your IP address will be changed 100% GUARANTEED, HIGH ANONYMITY).
3. You can DOWNLOAD MORE FILES on internet! (May unlimited, you can setting cookies later).
4. You can visit more websites WITHOUT AFRAID to got banned again.
5. Freedom to surf!

ALL that you want can be realized with FREE online tool (You don't need to install/download to use this tool) at :

<http://freeproxy.atspace.com>
(Don't forget to bookmark it!)
