Rob Dekker wrote:

You are welcome. With ethanol at \$2.33 and gasoline RBOB at \$ 3.31 the difference is double the ethanol credit (or 45ct/gallon).

first google hit:
<http://zfacts.com/p/63.html>

Where did you get your numbers?

I don't know where these guys get their numbers. Only the 51ct/gallon blenders credit (scheduled to be reduced) is a direct ethanol subsidy.

Just one.
