Signs of intelligent life on Earth?

I first got a link to this on an iPod site, of all places.  
Paste this location in to your own 'Google Earth'  
(nothing up MY sleeve ;^) and tell me what YOU think it is.

It is a marked/named site, BTW.

[Incorrect site Deleted – Sorry. wbh]

Looks like a common everyday farm to me.  
In fact your precise coordinates are the middle of a dirt track.  
What is it supposed to look like?  
BTW, it doesn't show up as a marked place.

Sorry about that. The wrong site got pasted. Try:

50° 0'38.20"N 110° 6'48.32"W
