Anywhere!

As for the Top 20 – I was implying major geological survey sites and such.

Hey—have you looked at www.missouriworld.net below? *|:-)

I do some of the best Missouri geology, hydrology and caving sites for the general public out there...they are all linked off my homepage.

See also the link 'The Wide Pacific Shore'—the Don Rimbach (deceased cave diver), Luella Owen (19th Century female geologist) and the Meramec River pages: actually everything on my homepage (even the poetry) has something to do with geology or geography.

I thought you meant actual real world geology sites to visit.

best

Jo
