Hi Turdy,

Did Santa bring you the inflatable Claudette True Geologist doll? I bet he didn't, because he knows you have been saying bad things about Australia in the playground.

Doesn't time fly. We are almost at the end of the first month of summer. It has been a very wet summer so far, and much cooler than normal too. In coastal Queensland it is almost 8C cooler than normal and the skies are continually overcast. No megafires to report.

When I heard about the quake in NZ last week I was wondering whether you were conducting secret experiments with your UPL modulator.

Merry Chistmas
Eduard
