I'd like to thank all of you guys. I don't know quite what you mean by "screen", etc. but I suppose that will fall in place after I get mine — and, now, I will order one. I can get one from ebay for \$15.99 (I think I recall), so with shipping it will run about \$22.00 as one of you stated. Heck, if it stays on for a day at a time, that's good enough for me. If it stays put for a week, I'll be overjoyed.

Thanks again.

.
