>long as the GPS functionality isn't compromised.

Funny I was going to say I'm OK with a GPS or camera on my cell phone  
as long as it doesn't compromise the functionality of my cell phone.  
But, I'm not going to pay extra for my phone in order to get a crappy  
gps (or camera) when what I wanted to buy was a phone, the reverse is  
true of a GPS I'd think.
