Hi

Does anyone have any NMEA data preferably GPGGA and GPZDA I need it to test a Google API I've developed, any text of someone driving round the UK would be perfect!

Thanks,

No Uk, sorry, but you can download an NMEA recording from my site:
www.claudegps.altervista.org
(go into download section, then download Example_Car.zip)

I have other NMEA recordings (really plenty of them!) so if you want other recording, just ask (here or by mail: my email address in on the site - Contacts)

bye
