I have two iQue 3600s. Been using them for over four years.

I just got the DVD with the City Navigator 2008 upgrade.

I called Garmin with some questions about unlocking. The tech guy told me that you now need a separate unlock code for each GPS. That's \$150 for an upgrade to my two IQs.

Used to be that each unlock would work with two units. The guy said that had changed in May.

What gives?

There's not much to say about it. They changed their policy as the guy said. Only one unlock per customer per CN NA 2008 update. I assume the reason is to extract more money from their multi-GPS customers.

Bruce.

Various online vendors are selling the update for around \$60 plus shipping.
