A friend of mine who has never used a gps before just bought one of these new out of the bargain bin at Crap Tire. Are there any gotcha's or other comments not mentioned in the popular reviews that he should be warned about?

Seems like a nice enough unit, but I am not at all familiar with any magellan products newer than the 1000, hahaha!

Given the model number you find a downloadable user's manual at <http://www.magellangps.com>
