Dear all,

You are cordially invited to the Statistica Sinica Discussion Paper meeting, jointly held with "the 2007 Taipei International Statistical Symposium & ICSA International Conference" from June 25–27 at Academia Sinica:

10:10am–12:10pm, June 26, 1st Conference Room, Activity Center

"Modeling and Predicting Probability with Outlooks"
by Mendel Fygenon, University of Southern California, USA

With invited discussions by

Cheng-Der Fuh, Academia Sinica, Taiwan
Chao Agnes Hsiung, National Health Research Institutes, Taiwan
Peter McCullagh, University of Chicago, USA
Steve Portnoy, University of Illinois, USA

For downloading the discussion paper and submitting your contributed discussion, please visit the journal site at

<http://www.stat.sinica.edu.tw/statistica/>

For registration of the conference and other details, please complete and return the registration form at

<http://www.stat.sinica.edu.tw/2007symp/regist-note3.htm>

The speaker and discussants will also give invited talks at the "Symposium on Recent Development of Statistics in Biological Sciences", organized by the Department of Biostatistics and Bioinformatics & Office of Biomedical Informatics, NHRI from June 28–29. For more details, please visit

http://www.tbi.org.tw/symposium/RDBS_2007/speakers.html

Please also let Suru Chang know (suru@xxxxxxxxxxxxx) if you have questions about registration of the NHRI symposium.

Sincerely,
Karen Li, on behalf of the co–editors
Editorial Assistant
Statistica Sinica
