The School of Informatics at Edinburgh University offers highly praised 1 year MSc (MS) degrees in Informatics, Artificial Intelligence, Cognitive Science and Computer Science. You will specialise in

\* Intelligent Robotics

We also offer other specialities:

- \* Analytical and Scientific Databases
- \* Bioinformatics
- \* Computational Systems Biology
- \* Computer Systems and Software Engineering
- \* Fundamentals of High Performance Computing Systems
- \* Geoinformatics
- \* Intelligent Robotics
- \* Knowledge Representation and Reasoning
- \* Learning from Data
- \* Natural Language and Language Engineering
- \* Neural Computation and Neuroinformatics
- \* Theoretical Computer Science

The course consists of 6 months taught work, with modules selected from over 50 modules at masters level, followed by a supervised 6 month project.

Studentships are available for students in some of the above specialties.

More about the course can be seen at:

<http://www.inf.ed.ac.uk/postgraduate/msc.html>

Dissertations from previous projects can be seen at:

<http://www.inf.ed.ac.uk/publications/thesis/msc.html>

The School of Informatics received an excellent rating in the most recent SHEFC Teaching Quality Assessment exercise.

In the UK, the higher education funding bodies carry out a Research Assessment Exercise (RAE). The last RAE exercise was held in 2001 and the University of Edinburgh was the only university in the UK awarded the top 5\*A rating for Computer Science.

## Application

=====

You must have a first or upper second class honours degree or its equivalent (A or B GPA average), normally in an area of Informatics, such as Artificial Intelligence, Cognitive Science or Computer Science. You must have experience in computer programming. Applicants with degrees in these disciplines will also be considered: Education, Electrical Engineering, Psychology, Mathematics, Philosophy, and Physics. See here about application procedures:  
<http://www.inf.ed.ac.uk/postgraduate/apply.html>
