I'm glad you asked. It'll give me the chance to ask  
you what I've been wondering for awhile.

What is the difference between podcasting and streaming audio?

Hey, Curt, won't you explain to me what the guy is asking?

I think he is asking about the availability of a rarely found type of  
Japanese/English audio program in a highly non-standard not-widely-used  
file format.
