Edict currently has the following two entries

- ' M†FV (adj-na,n) kill-joy; wet-blanket
- M†FV (n) skeleton at the feast; being wet-blanketed

I've looked around, 'pulled' dictionaries and checked with ρWI's ; and I'm pretty sure · is wrong.. Although if so it's far from an uncommon mistake.

- ' 349,000
- 24,300

Hmm, is Edict "various references" I wonder?
