I said to my IME to spell DcKRd and to my surprise it didn't show but ö . My astonishment is build up on following bases.

1. I expected DcKRd to be the same way as DctM will be 9, with no extra "thingies".

So what did you expect DaLd to be?

I'm sorry, i don't understand the question. Or rather i do but i find it very odd for you to wonder that. So, i'm guessing you try to tell med something and i'm simply missing it.
