Re: How to change OE so the coding is right automatically

Hmm, have you got your  
"outside" and "inside"  
mixed up?

Am I correct in thinking that the JIS X 0212  
has now been incorporated into  
JIS X 0213 along with JIS X 0208?

In the software configuration, it allows you to exclude certain encodings.  
I have now included Big 5 in the 'forbidden' sets. Let's see what happens.

Phil Yff

Now it reverted to us-ascii.

JWfÊ

With some Japanese thrown in.

~\_Bhg

Phil Yff

It reverts to utf-8
