It's pretty strange stuff but I've seen much worse.

Does anybody really know that this is "his wife's" calendar? It could just be some kook or stalker who got some pages of the calendar of someone.

If it's a troll, it's a pretty good one, or at least original.

It's long past time to apply some common sense to the situation.

Having opened the bag of snakes, the guy is now saying "The topic is closed." Oh, well. My life ain't perfect, but I prefer it to his!
