What made the series work was that it took up the relation of men and women, that the woman likes the James Bond dashing daring and accommodates the Clouseau results, as something she's nevertheless satisfied with.

And this from the jerk who's always complaining about other people's diction??

Watch 99's constant relation to Smart.

You're saying she was never unfaithful to him?

The Clouseau result that follows the Bond daring, as it does in life by the way, was something she accepted every time. She was satisfied with him.

If she wasn't satisfied, and she was stuck with him, she'd be nagging, which is the other course eg. a marriage can take when the man is sent out on constant quests, as men always are.

What makes 99 hot isn't her looks but that she doesn't nag the inevitable Clouseau that was sent out as Bond.

How many million men tuned into that.

The Chief isn't so accepting, but more resigned.
