Re: The Origins of Zürich...

Peter, I know what my son's first sounds
where. I was there, you were
not!

Peter wrote:
You did not say "his first sounds." You said "his first word."

"Moo" is a word! ;-)

Paul wrote:
Then, is it a noun or verb, or what is it?

The Merriam–Webster Dictionary claims

moo vb. to make the natural throat noise of a cow ---- moo n.

moo can be used as a verb or a noun.

Or does the smiley mean you actually don't mean
what you are saying at all?

No. I know I what I claimed is right and I meant it.

Heidi wrote:
However, let's get really picky. He began with the "oo" sounds.

Paul wrote:
Now seriously, why is "moo" a word but "oo" just a sound?

Moo really is a word. "oo" is not in my English dictionary. It could,
however, exist in another dictionary. It could also be a real word in
another language. If you know "oo" to be a word somewhere, please let me
know where and in what language and provide a meaning.

From "oo" to "moo" to "doo" to "goo" exactly in that order.

Okay, so he is not a European, they always start with "boo".

Do you know what culture a baby belongs to when he/she uses "moo?" I'd be interest in knowing that.

oo

oo-moo

moo-moo

doo-doo

goo-goo

moo-moo doo goo. ;-)

Heidi

Okay, it's not quite a haiku yet, give it a month or two. :-)

Ah come on! Give the baby a break! He/she has enough trouble trying to communicate, nevermind engaging in oral poetry! LOL... ;-)
